BUILDING STRENGTH TO THRIVE

Parkinson's Classes

Approximately 7 to 10 million people all over the world live with Parkinson's disease. Parkinson's disease is a chronic, progressive neurological disorder where part of the brain gradually becomes more damaged as the years go by.

The Parkinson's Cycling Program is an indoor cycling class where individuals diagnosed with Parkinson's Disease work in a group setting coached by a certified Parkinson's Cycle Coach. This class has shown to help in symptom management of the disease.

Parkinson's Cycle is **generously funded by the Parkinson's Foundation** and is open to all members of our Parkinson's community regardless of YMCA or Parkinson's Foundation membership. Care takers are welcome to participate as well. **There is no cost to participate.**

Parkinson's Surf and Turf is a land and water based exercise program available for YMCA members to attend at no additional cost. Special YMCA membership joining rates are available for Parkinson's Foundation members.
